I Don't Know You, But

You were an organ donor,  
 At least that's what Mom told me.  
 Oh, and you were a protector of us

Thank you all for being here today.

I know dad is looking over every single one here today, protecting us. What makes dad special? Our father was kind, very funny, handy, hardworking, and an outgoing guy. He would give his shirt off his back if someone needed it more.

I didn't get the chance to get to know my dad too well but from I'm told he was a great mechanic with no job ever being too big with the light in his eyes growing bigger around my sister and me. He taught me to put others first while still focusing on myself and to be determined towards what I want.
